📊 Valuation Multiples

P/E	P/S	P/B	EV/EBITDA
N/A (neg…	~0.25 (C…	N/A (dat…	N/A (neg…

Peer Comparison: Trades at significant discount to larger bitcoin miners like Marathon Digital which trade at higher revenue multiples.

📈 Growth Expectations

Industry Outlook: Bitcoin mining sector faces profitability pressure with hash prices at $29/PH/s/day and increasing pivot to AI infrastructure for revenue diversification.

Company Growth: Revenue declined 8% to C$21.2M in 2025 but company expanding capacity to 50MW through Sphere 3D merger and new hosting agreements.

Analyst Consensus: Negative near-term outlook due to compressed mining margins but potential upside from infrastructure expansion and AI pivot strategy.

👥 Management & News

Key Executives: Joel Block (CEO, appointed July 2025, formerly CFO US Bitcoin Corp), Drew Armstrong (Chairman/President), AJ Scalia (former CEO, now advisor)

Recent News: ['March 2026: Announced merger with Sphere 3D Corp in all-stock transaction', 'December 2025: Secured new 10MW hosting deal with Sphere 3D Mining, expanding capacity', 'November 2025: Q3 revenue C$5.5M with continued infrastructure buildout']

Local Context: Canadian bitcoin mining companies face regulatory clarity while benefiting from renewable energy access and stable grid infrastructure.

📰 Local News & Recent Developments

Overall Sentiment: Recent news sentiment is cautiously positive with operational expansion and strategic merger offsetting concerns about mining profitability pressure.

Recent News

⚪ **Cathedra Reports 2025 Financial Results**
2026-03-24 — *Newsfile Corp*
Company reported C$21.2M revenue but C$9.7M net loss for 2025 amid challenging mining environment.

🟢 **Cathedra and Sphere 3D Announce Business Combination**
2026-03-05 — *Newsfile Corp*
All-stock merger creates larger bitcoin mining and digital infrastructure operator.

🟢 **Corporate and Operational Updates**
2025-12-03 — *Newsfile Corp*
New 10MW hosting agreement with Sphere 3D and expansion approvals boost capacity outlook.

Corporate Developments

📈 **[PARTNERSHIP]** Sphere 3D Merger Agreement
2026-03-05
Definitive agreement for all-stock business combination to create larger mining operation.

📈 **[OPERATIONAL]** Capacity Expansion Updates
2025-12-03
Secured 10MW hosting deal and 5MW Brickyard expansion approval bringing total to 50MW.

🚀 Pending Catalysts

Upcoming Events: Sphere 3D merger completion expected 2026, earnings April 30 2026, Brickyard site 5MW expansion completion

Potential Upside: Merger creates larger scale operator with diversified revenue streams and potential AI infrastructure monetization.

Potential Risks: Compressed bitcoin mining margins and high debt levels from recent C$9.7M net loss could pressure operations.

---

4 · Verdict: 🟢 UNDERVALUED

Confidence: MEDIUM

Reasoning: Trading at 0.25x revenue multiple well below sector peers despite operational expansion and strategic positioning through merger. Infrastructure pivot and capacity growth provide upside potential despite near-term margin pressure.

Price Context: Stock declined significantly from C$2.7052 - weekhightocurrentC$0.58 levels amid sector-wide mining profitability concerns.
